

SCIENCE/MATH GPA WORKSHEET

To compute your science/math GPA, complete this form for all Biology, Chemistry, Physics, and Math courses taken at the University of Utah. Enter each course under the appropriate heading. Determine the weight for each grade in the box; multiply that weight by the number of hours attempted to get the quality points for each course. Total the hours and the quality points. Then transfer totals to the Grand Total, to compute the Total Hours, and GPA for the coursework taken.
