NOTES:

1. A copy of this approval form must be sent to Property Accounting, 416 Park, for the University records and State auditing purposes.
2. The off-campus location will be subject to normal State and University inventory verification procedures.
3. For inventory record purposes, the building and room location of the responsible individual should be listed rather than the location of the equipment. If anyone should inquire about this equipment, they should show this form as documentation for approval of the off-campus use.
4. Property Accounting must be notified, in writing, within three (3) days of permanent return of the property to Campus.
5. When equipment is removed from campus, there is often an increased chance for loss—especially theft. Therefore, every reasonable precaution should be taken to prevent damage or loss to that equipment.
